To Whom It May Concern:

I am writing this letter in regards to M.L. Barnard Construction Company. This company built a Christian Life Center for Erlanger Baptist Church in 1997. I was the pastor of the church during the entire construction process.

Barnard Construction's work is excellent. There were no complaints in regards to their craftsmanship. The building was built with excellent material and with the hands of excellent workers. Barnard was sensitive to working with a church. They were aware of the quirks of working with a congregation and were responsive to any questions. When a change was suggested, they listened. They were willing to be very flexible.

The people that worked on the project were very nice and cordial. Their behavior was exemplary.

The building is used every day. It is very functional. It is open to the public all day every day. The building has been a blessing to the entire Erlanger community. We thank Barnard construction for a job well done.

Mike Barnard is honest. He tells you how much it will cost. He shows you the changes and adjustments. He does not cut any corner. He won't do something to save money at the expense of quality.

I would reconnect Barnard Construction to you without any hesitation. I can answer any questions or be of any help, please call 859-240-9449.

Sincerely,

Dr. Bill Crosby
V.P. Stewardship Resources
